The Macnab

The Macnab Day pays homage to John Buchan's thrilling novel in 1925, in which three prominent Scottish landowners received a challenging note telling them that 'John Macnab' intends to poach from their estates without being caught. He succeeded! With this in mind, WLSS presents their own 'Macnab'.

The day incorporates shooting a shotgun, shooting a rifle and fly-fishing. Each group will get to shoot some truly exciting clays in our grouse butts, learn the calm and skill required to shoot a .243 rifle as well as being taught the delicate art of fly-fishing on our lake.
